

## Offering Hope and Healing

Samaritan Counseling, Guidance, Consulting is a faith-based, non-denominational nonprofit that treats 1,200+ men, women, children, families, and couples each year. State licensed and specializing in a wide range of behavioral health diagnoses, our therapists are committed to helping people heal and live their best lives, as God intended. We also offer education programs and a variety of services through our Caring for Clergy and Congregations program.

At Samaritan, we understand how overwhelmed you are with pastoral care and counseling needs for your congregation. For decades, we have been a leading referral source for pastors, not only by providing spiritually-integrated therapy for church and community members, but also by offering clergy workshops, coaching, and other services through our Caring for Clergy and Congregations program. Samaritan offers all people who are struggling a chance to heal and change their lives. Learn more by participating in our . . .
